MITA is a recruitment and training program approved by the Department of Labor, and the State of California Department of Industrial Relations Division of Apprenticeship Standards. Our organization was founded in 1997, by a group of contractors whose aim is to promote masonry and improve the recruitment and training of new skilled talent towards jobs and careers in masonry. MITA teams up with high schools and colleges to promote and teach masonry to as many young people as possible. MITA helps contractors to be in compliance with public works requests for dispatch of apprentices, and bricklayer mason training funds contributions. Be a part of preserving the masonry industry into the future. Become a member, get involved. MITA is a nonprofit organization and your tax deductible membership donation is greatly appreciated.

Thank you!
